

Self tape - Redirect/Notes

It's the next best thing to having me in the room with you. As you are in the process of putting down a self-tape audition, send me your best take of each scene and I will give you specific, actionable notes and redirection that you can apply immediately to make your next take even stronger.

Turn around in 15 - 20 minutes.

Ideally, If you know ahead of time when you will be taping, let me know and I will be sure to be available to watch and get back to you with notes.

These days, if I'm not currently with a coaching client, I'm in my office writing so I am good with short notice on this service.
